**CERTIFIED NATURAL HEALTH PROFESSIONALS**

**Don't Miss This Seminar!**

## **IRIDOLOGY**

*Every part of the body is physically linked to the eye by the nervous system. This makes it very easy to “see” weaknesses and abnormalities of each system of the body long before they may be manifested by undesirable symptoms.*

Enlisting the latest European Iridology methods, as well as the traditional Jensonian American Iridology method, this seminar will focus on the practical application of iris analysis and interpretation. By understanding the science of Iridology, the actual cause of the unwanted symptoms (or future unwanted symptoms) can be easily determined. Knowing how to address those causes with the best natural methods means the best possible result for everyone.

### **Highlights of the Iridology Seminar:**

- Learn how to determine weak areas as early as possible
- Which natural remedies support those weak areas
- How to overcome common misunderstandings and objections
- Hands on practice overseen by our experienced instructor
- Great visual aids for best comprehension of the material
- One of the five courses for certification
