

# EAR ACUTHERAPY

*Your body's organs and structure can be mapped onto your ear, and these areas can be activated through the use of electrical, cold laser, magnetic and heat stimulation. This seminar will introduce these auricular points that are based on Chinese Nomenclature.*

## EAR ACUTHERAPY

This seminar will teach the students the ear protocols that help people deal with common conditions including obesity, smoking and stress. It will also prepare practitioners to be familiar with the topography of the ear so that they can identify and stimulate points based on both the French (Nogier) and Chinese Auricular Systems in order to restore both emotional and energetic balance to the internal body organs and structure.
